

## Norton 360

# Benefits

Norton 360 will help you to deliver the best protection to your customers and:

### **Keep their computer, their identity and their stuff safe with powerful, easy-to-use threat protection**

- Seamlessly combines our protection technology and automated backup into one easy-to-use solution for PCs.
- Norton protection technology is proven to deliver effective protection from online threats.
- Five different layers of smart protection proactively detect and eliminate threats before they reach your clients' computer.
- Identifies and stops new threats fast.

### **Enable them to browse, shop, bank and socialise online without worry, annoying slowdowns or disruptions**

- With more than 20 intelligent sensors and superior performance, Norton 360 protects your customers and keeps their PC running fast.
- Scans email and instant messages for viruses, suspicious links, infected attachments and other dangers before your clients open them.
- Identifies safe websites, proactively blocks unsafe sites and stops online threats before their browser even loads.
- Secures and remembers user names and passwords to prevent cybercriminals from hacking into PCs and swiping information.

### **Help protect your customers' kids from Internet dangers with Norton Online Family**

- Parental Controls Management lets them easily connect to Norton Online Family right from within the Norton Control Center.
- Lets them know what their kids are up to online by tracking which websites they visit, and allows your customers to block inappropriate sites.
- Keeps an eye on their kids' social network activities and who they're chatting with online, so your clients can spot potential dangers.

### **Protect their photos, music, videos and other important stuff from loss with automatic backup**

- Improved technology makes backing up their stuff easy.
- Automatically backs up and encrypts their important files, so they can get them back in case of a hard drive crash, natural disaster or other mishap.
- Safeguards their important stuff either online to our state-of-the-art data centers or to one of their external storage devices.
- Includes 2 GB of secured online storage – enough to store hundreds of photos or songs.

- Online access lets your customers easily share photos, videos and other files with family and friends—whether they use a PC or Mac®—by simply emailing them a link.

### **Keep your customers' PC running fast**

- Fine-tunes their PC settings to keep it running at top speed.
- Frees up memory so applications start up and run faster.
- Removes unnecessary files to improve their computer's performance.
- Cloud-based Norton Management puts you in complete control and simplifies protecting your various devices.
- Lets you fix, update, renew, and install Norton AntiVirus on additional PCs over the Internet with a few simple clicks.
- Brings together your other Norton protection products in one convenient place.
- Always Up-To-Date Product Version: Norton automatically sends you important product and feature updates throughout the year. The latest version installs without you needing to do anything.
